PROFESSIONAL SUMMARY

Customer Support Senior Team Lead & Assistant Manager with 6+ years of experience leading high-volume, cross-office operations teams (Amazon, Uber AI, Google via Randstad) for Business and Consumer customers. Proven track record in operational workflow delegation, KPI-based process optimization, and representing teams in audits while sustaining 99–100% service accuracy. Skilled in re-evaluating operational metrics against real-time performance, coordinating with training teams for associate upskilling, and delivering CX outcomes using Agile/Scrum and Root Cause Analysis (RCA).

WORK EXPERIENCE

Uber AI Solutions Support (via Adecco) — Operations Lead (Ops 3)

Hyderabad, India | Mar 2026 – Present

- Maintained accountability and stakeholder alignment for 20 associates as primary Point of Contact (POC) for cross-team and client communications.
- Built associate ownership through structured 1-on-1 mentorship and collaborative upskilling partnerships with Training Coordinators.
- Ensured standard operating procedure (SOP) clarity and 100% adherence by updating process documentation and serving as the primary QA checkpoint.
- Enhanced operational delivery and team throughput via rigorous process tracking, Root Cause Analysis (RCA), and prioritized policy-gap fixes.

Kent State University — Graduate Professional, Academic Operations

Ohio, United States | Jan 2024 – May 2025

- Delivered 100% on-time project milestones for a major capstone initiative utilizing Scrum sprint coordination, risk controls, and executive stakeholder updates.
- Maintained 100% data integrity and accuracy in compliance-critical records for International Student Services with zero audit discrepancies.

Google (via Randstad) — Talent Delivery Manager

Hyderabad, India | Aug 2021 – Dec 2023

- Achieved 100% of quarterly performance targets across a 40-member screener team by managing daily workflows, delegating tasks, and forecasting capacity.
- Fostered associate ownership as Subject Matter Expert (SME), directing training teams on coaching, onboarding, and continuous mentorship.
- Sustained a 99–100% quality score across high-volume queues by enforcing SOPs and serving as the team's central QA control point.
- Improved operational efficiency and reduced error recurrence through weekly RCA governance and prioritized solutions for policy gaps.

Copart India — Business Process Executive

Hyderabad, India | Dec 2020 – Aug 2021

- Closed inbound commercial car-purchase negotiations end-to-end, managing vehicle valuation, B2B pricing, and pickup dispatch scheduling.
- Resolved critical customer escalations and multi-tier follow-ups by logging and managing high-priority cases in Salesforce Service Cloud.

Amazon — Transaction Risk Investigator

Hyderabad, India | Jun 2020 – Dec 2020

- Informed risk-mitigation strategies by analyzing high-volume merchant accounts for fraud patterns, transactional anomalies, and compliance gaps.
- Ensured operational and data-protection policy adherence via detailed RCA on risk incidents, producing audit-ready documentation.

Knoah Solutions — Quality Analyst & Project Support Executive

Hyderabad, India | Jul 2018 – Jun 2020

- Resolved high-volume multichannel customer queries with 100% accuracy via Salesforce Service Cloud ticketing workflows.
- Drove measurable performance improvement across a 30-person team via structured evaluations, QA guidelines, and frequent RCA audits.
- Improved compliance and operational consistency by coaching 25 associates as SME on new service line rollouts.
- Supported audit readiness by maintaining the central knowledge base and preparing weekly QA and executive audit reports.
