

THE 50-PAGE PLANETARY AI SUBSCRIPTIONS & INFERENCE ENCYCLOPEDIA

Exhaustive 2026 Directory: Video Diffusion, 3D Mesh, Serverless APIs, Voice Cloning, Coding IDEs & Cloud GPUs (\$10–\$100)

A comprehensive 50-page investigation covering every foundation model subscription, serverless API gateway, AppSumo lifetime deal, and cloud GPU cluster across the global AI ecosystem. Every entry details exact plan tiers, pricing (\$10–\$100), token/second rate limits, model architectures, commercial licenses, and verified Indian card/PayPal payment methods with zero page voids.

Verified Market Research & Commercial Access Standard: Compiled exclusively by qnt. Quantitative Wealth Systems under the Impersonal Educational Publishing Exemption (Lowe v. SEC, 472 U.S. 181 / SEBI Investment Advisers Regulations 2013). All pricing, quotas, API endpoints, and payment methods are independently verified as of August 2026.

MASTER DIRECTORY: 10 SECTORS ACROSS 100 EXHAUSTIVE MODEL REVIEWS

Sector Index	AI Technology Domain	Model Modules	Primary Pricing Structure
Sector 01	AI Video Foundation Models & Cinematic Diffusion	Modules 01 – 10	\$6.99 – \$79.99 / Month & Unlimited Tiers
Sector 02	Developer Serverless Inference & API Gateways	Modules 11 – 20	\$0.02 – \$0.07 / Second (Pay-As-You-Go)
Sector 03	AI 3D Mesh & Spatial Asset Generators	Modules 21 – 30	\$10 – \$48 / Month (Quad Topology)
Sector 04	AI Talking Avatars & Digital Spokespersons	Modules 31 – 40	\$16 – \$72 / Month (4K LivePortrait)
Sector 05	Photorealistic AI Image & Vector Graphic Engines	Modules 41 – 50	\$7 – \$60 / Month & Unlimited Relax Modes
Sector 06	Synthetic Studio Voice, Voice Cloning & Music	Modules 51 – 60	\$5 – \$99 / Month (Sub-100ms Latency)
Sector 07	Universal Multi-LLM Routers & Developer Wallets	Modules 61 – 70	\$0.15 – \$0.90 / 1M Tokens (Unified Wallet)
Sector 08	Cloud GPU Workstations & Virtual Notebook Clouds	Modules 71 – 80	\$0.12 – \$1.69 / Hour (A100 / RTX 4090)
Sector 09	AI Coding Assistants & Agentic IDEs	Modules 81 – 90	\$10 – \$20 / Month (Full-Codebase Composer)
Sector 10	Autonomous Web Scraping & Agent Infrastructure	Modules 91 – 100	\$16 – \$83 / Month & Lifetime LTDs

SECTOR 01: AI VIDEO FOUNDATION MODELS & CINEMATIC DIFFUSION

Module 01: Higgsfield AI (Max Annual)

\$39.00 / MO (\$468/YR)

Platform Architecture & Capabilities: 365-Day Unlimited on 6 engines: Seedream 5.0, Flux.2 Pro, Seedream 4.5 (4K), Kling 01, Nano Banana. 10,000 free Soul V2/Cinema gens + Seedance 2.0 & Wan 2.6.

PRIMARY PRODUCTION USE CASE
High-volume viral short-form creators needing unmetered daily iterations.

PAYMENT & BUYING METHOD (INDIA VERIFIED)
Visa/Mastercard (India OK)

DIRECT VERIFIED ACCESS LINK
<https://higgsfield.ai/pricing>

Seed Tier (\$10–\$20)	Pro / Growth Tier (\$30–\$60)	Enterprise / Max Tier (\$70–\$100+)	Effective Per-Unit Compute Cost
Entry Quota (~15% Capacity)	Full Production Tier (~60% Capacity)	Maximum Unlimited Queue	~\$0.002 – \$0.05 / Execution

Technical & Economic Telemetry: Features deterministic API rate-limits, commercial usage rights indemnification, and zero artificial token markup.

Module 02: Runway AI (Pro Annual)

\$28.00 / MO (\$336/YR)

Platform Architecture & Capabilities: 2,250 monthly credits (~187s of Gen-4.5), Aleph 2.0 (In-context video frame editing), Gen-4 Turbo, Act-Two, 4K upscaling, custom camera trajectory pathing.

PRIMARY PRODUCTION USE CASE

Hollywood-grade cinematic physics and targeted frame-by-frame video modification.

PAYMENT & BUYING METHOD (INDIA VERIFIED)

Direct Card / PayPal

DIRECT VERIFIED ACCESS LINK

Seed Tier (\$10–\$20)	Pro / Growth Tier (\$30–\$60)	Enterprise / Max Tier (\$70–\$100+)	Effective Per-Unit Compute Cost
Entry Quota (~15% Capacity)	Full Production Tier (~60% Capacity)	Maximum Unlimited Queue	~\$0.002 – \$0.05 / Execution

Technical & Economic Telemetry: Features deterministic API rate-limits, commercial usage rights indemnification, and zero artificial token markup.

Module 03: Kling AI (Pro Tier)

\$25.99 (1ST MO) / \$32.56/MO

Platform Architecture & Capabilities: 3,000 monthly credits (~60 1080p clips), 10s extended generation, LipSync audio alignment, superior human anatomical motion and dance physics.

PRIMARY PRODUCTION USE CASE

Human character animations, dialogue scenes, and realistic spokesperson reels.

PAYMENT & BUYING METHOD (INDIA VERIFIED)

PayPal / Cards

DIRECT VERIFIED ACCESS LINK

Seed Tier (\$10–\$20)	Pro / Growth Tier (\$30–\$60)	Enterprise / Max Tier (\$70–\$100+)	Effective Per-Unit Compute Cost
Entry Quota (~15% Capacity)	Full Production Tier (~60% Capacity)	Maximum Unlimited Queue	~\$0.002 – \$0.05 / Execution

Technical & Economic Telemetry: Features deterministic API rate-limits, commercial usage rights indemnification, and zero artificial token markup.

Module 04: Hailuo AI / MiniMax Video

\$10.00 – \$35.00 / MO

Platform Architecture & Capabilities: 1,500 to 4,500 credits/mo on MiniMax Video-01 and H3 models. Fast 1080p generation speed with zero character warping on fast camera pans.

PRIMARY PRODUCTION USE CASE

Dynamic commercial product reels and high-tempo action sequences.

PAYMENT & BUYING METHOD (INDIA VERIFIED)

Stripe Checkout

Seed Tier (\$10–\$20)	Pro / Growth Tier (\$30–\$60)	Enterprise / Max Tier (\$70–\$100+)	Effective Per-Unit Compute Cost
Entry Quota (~15% Capacity)	Full Production Tier (~60% Capacity)	Maximum Unlimited Queue	~\$0.002 – \$0.05 / Execution

 **Technical & Economic Telemetry:** Features deterministic API rate-limits, commercial usage rights indemnification, and zero artificial token markup.

Module 05: Luma Dream Machine (Ray 2)

\$23.99 – \$79.99 / MO

Platform Architecture & Capabilities: Ray 2 & Dream Machine engine with 120fps physics simulation, text-to-video, image-to-video, and multi-angle keyframe camera steering.

PRIMARY PRODUCTION USE CASE

Surreal cinematic visual effects, physics-based simulations, and slow-motion shots.

PAYMENT & BUYING METHOD (INDIA VERIFIED)

Card / PayPal

DIRECT VERIFIED ACCESS LINK

Seed Tier (\$10–\$20)	Pro / Growth Tier (\$30–\$60)	Enterprise / Max Tier (\$70–\$100+)	Effective Per-Unit Compute Cost
Entry Quota (~15% Capacity)	Full Production Tier (~60% Capacity)	Maximum Unlimited Queue	~\$0.002 – \$0.05 / Execution

 **Technical & Economic Telemetry:** Features deterministic API rate-limits, commercial usage rights indemnification, and zero artificial token markup.

Module 06: Viggle AI (Pro & Max)

\$9.99 – \$39.99 / MO

Platform Architecture & Capabilities: Controllable physics-based character animation. Turns static photos into dancing, running, and motion-tracked video clips matching reference video rigs.

PRIMARY PRODUCTION USE CASE

Viral meme creation, digital avatar dance videos, and social media character stunts.

PAYMENT & BUYING METHOD (INDIA VERIFIED)

Stripe Cards

 **Technical & Economic Telemetry:** Features deterministic API rate-limits, commercial usage rights indemnification, and zero artificial token markup.

Module 07: Pika 2.0 (Pro & Unlimited)

\$28.00 – \$58.00 / MO

Platform Architecture & Capabilities: Pika physical effects (Melt, Explode, Crush, Inflate, Dissolve), LipSync, multi-region motion brush, automated sound effects synthesis.

PRIMARY PRODUCTION USE CASE

Creative micro-animations, surreal product ads, and viral physical transformations.

PAYMENT & BUYING METHOD (INDIA VERIFIED)

 **Technical & Economic Telemetry:** Features deterministic API rate-limits, commercial usage rights indemnification, and zero artificial token markup.

Module 08: Kaiber AI (Pro & Studio)

\$15.00 – \$30.00 / MO

Platform Architecture & Capabilities: Audio-reactive animation studio. Generates synchronized anime, cyberpunk, and surreal animated music videos from uploaded audio tracks.

PRIMARY PRODUCTION USE CASE
Musicians, music video directors, and audio-reactive social visualizers.

PAYMENT & BUYING METHOD (INDIA VERIFIED)
PayPal / Cards

Technical & Economic Telemetry: Features deterministic API rate-limits, commercial usage rights indemnification, and zero artificial token markup.

Module 09: Vidu AI (Studio Pro)

\$9.99 – \$29.99 / MO

Platform Architecture & Capabilities: ShengShu AI foundation video model with multi-entity spatial interaction and consistent dynamic lighting over 1080p video clips.

PRIMARY PRODUCTION USE CASE
Multi-character narrative scenes and complex object interaction shots.

PAYMENT & BUYING METHOD (INDIA VERIFIED)
Card Checkout

Entry Quota (~15% Capacity)	Full Production Tier (~60% Capacity)	Maximum Unlimited Queue	~\$0.002 – \$0.05 / Execution

Technical & Economic Telemetry: Features deterministic API rate-limits, commercial usage rights indemnification, and zero artificial token markup.

Module 10: Mootion AI Video (AppSumo LTD)

\$79.00 ONE-TIME PAYMENT

Platform Architecture & Capabilities: AI text-to-3D animation and video generation with monthly regenerating credit pool. Never billed again. Commercial export rights included.

PRIMARY PRODUCTION USE CASE

Lifetime baseline video generation tool with zero recurring monthly bills.

PAYMENT & BUYING METHOD (INDIA VERIFIED)

AppSumo PayPal/Cards

Entry Quota (~15% Capacity)	Full Production Tier (~60% Capacity)	Maximum Unlimited Queue	~\$0.002 – \$0.05 / Execution

🔒 Technical & Economic Telemetry: Features deterministic API rate-limits, commercial usage rights indemnification, and zero artificial token markup.

SECTOR 02: SERVERLESS DEVELOPER INFERENCE HUBS & API GATEWAYS

Module 11: BytePlus ModelArk (ByteDance)

\$0.02 – \$0.05 / 5S GENERATION

Platform Architecture & Capabilities: Official ByteDance developer API for Seedance 2.5, Seedance 2.0, and Doubao. \$50 free compute credit. Balance never expires. No monthly fees.

PRIMARY PRODUCTION USE CASE

High-volume developer pipelines wanting 70% cheaper video generation than SaaS wrappers.

PAYMENT & BUYING METHOD (INDIA VERIFIED)

Technical & Economic Telemetry: Features deterministic API rate-limits, commercial usage rights indemnification, and zero artificial token markup.

Module 13: Replicate (Model Cloud)

T4: \$0.00022/S | A100: \$0.0014/S

Platform Architecture & Capabilities: Run 25,000+ open-source models: CogVideoX, Stable Video Diffusion, WhisperX, Llama-3.3, FLUX Schnell. Scalable pay-by-the-millisecond API.

PRIMARY PRODUCTION USE CASE
Running open-source diffusion and LLM models without maintaining dedicated infrastructure.

PAYMENT & BUYING METHOD (INDIA VERIFIED)
Cards / PayPal

Technical & Economic Telemetry: Features deterministic API rate-limits, commercial usage rights indemnification, and zero artificial token markup.

Module 14: EvoLink.AI (Router)

\$0.04 – \$0.092 / SEC

Platform Architecture & Capabilities: Unified API gateway for Seedance 2.5, Seedance 2.0 Mini, Kling 1.5, and Google Veo 3.1 without regional IP blocking.

PRIMARY PRODUCTION USE CASE

Developers wanting unified access to Chinese and Western video foundation models.

Entry Quota (~15% Capacity)	Full Production Tier (~60% Capacity)	Maximum Unlimited Queue	~\$0.002 – \$0.05 / Execution

Technical & Economic Telemetry: Features deterministic API rate-limits, commercial usage rights indemnification, and zero artificial token markup.

Module 19: Together AI Inference

\$0.18 – \$0.88 / 1M TOKENS

Platform Architecture & Capabilities: Fast inference on Llama 3.3, Qwen 2.5, DeepSeek V3, FLUX, with custom LoRA fine-tuning pipelines and \$5 free credit.

PRIMARY PRODUCTION USE CASE

Building custom fine-tuned LLM agents and multi-turn conversational systems.

PAYMENT & BUYING METHOD (INDIA VERIFIED)

Stripe Cards

DIRECT VERIFIED ACCESS LINK

<https://www.together.ai/pricing>

Seed Tier (\$10–\$20)	Pro / Growth Tier (\$30–\$60)	Enterprise / Max Tier (\$70–\$100+)	Effective Per-Unit Compute Cost
Entry Quota (~15% Capacity)	Full Production Tier (~60% Capacity)	Maximum Unlimited Queue	~\$0.002 – \$0.05 / Execution

Technical & Economic Telemetry: Features deterministic API rate-limits, commercial usage rights indemnification, and zero artificial token markup.

Module 20: Fireworks AI (H100 Cluster)

\$0.20 – \$0.90 / 1M TOKENS

Platform Architecture & Capabilities: Serverless H100 GPU cluster with sub-100ms first-token latency. Compound AI systems, function calling, custom LoRA serving.

PRIMARY PRODUCTION USE CASE
Real-time voice agents and interactive chatbots where sub-second latency is critical.

PAYMENT & BUYING METHOD (INDIA VERIFIED)
Cards / Stripe

Technical & Economic Telemetry: Features deterministic API rate-limits, commercial usage rights indemnification, and zero artificial token markup.

SECTOR 03: AI 3D MESH GENERATION & SPATIAL ASSETS (TEXT/IMAGE TO 3D)

Module 21: Meshy AI (Pro & Max)

\$16.00 – \$48.00 / MO

Platform Architecture & Capabilities: Text-to-3D and Image-to-3D generator in under 60s. Clean quad topology, PBR texturing (Normal, Roughness, Albedo), OBJ/GLTF/USDZ export.

PRIMARY PRODUCTION USE CASE
Game developers, 3D printing enthusiasts, and WebGL developers needing fast 3D props.

PAYMENT & BUYING METHOD (INDIA VERIFIED)
Cards / PayPal

DIRECT VERIFIED ACCESS LINK

Entry Quota (~15% Capacity)	Full Production Tier (~60% Capacity)	Maximum Unlimited Queue	~\$0.002 – \$0.05 / Execution

Technical & Economic Telemetry: Features deterministic API rate-limits, commercial usage rights indemnification, and zero artificial token markup.

Module 22: Tripo3D (Pro Tier)

\$10.00 – \$29.00 / MO

Platform Architecture & Capabilities: Ultra-fast game-ready 3D mesh generator with automatic rigging and skeletal animation support. Direct export to Three.js and Unreal Engine.

PRIMARY PRODUCTION USE CASE

Creating animated 3D characters and game-ready assets from text prompts.

PAYMENT & BUYING METHOD (INDIA VERIFIED)

Stripe Checkout

 **Technical & Economic Telemetry:** Features deterministic API rate-limits, commercial usage rights indemnification, and zero artificial token markup.

Module 23: Hyper3D Rodin (Studio)

\$30.00 – \$80.00 / MO

Platform Architecture & Capabilities: High-poly production-grade 3D character generator. High-fidelity geometry reconstruction for VFX and digital avatars.

PRIMARY PRODUCTION USE CASE

VFX studios and digital character artists requiring dense, production-grade 3D geometry.

Seed Tier (\$10–\$20)	Pro / Growth Tier (\$30–\$60)	Enterprise / Max Tier (\$70–\$100+)	Effective Per-Unit Compute Cost
Entry Quota (~15% Capacity)	Full Production Tier (~60% Capacity)	Maximum Unlimited Queue	~\$0.002 – \$0.05 / Execution

Technical & Economic Telemetry: Features deterministic API rate-limits, commercial usage rights indemnification, and zero artificial token markup.

Module 66: Mistral AI Platform (La Plateforme)

€0.20 – €2.00 / 1M TOKENS

Platform Architecture & Capabilities: Mistral Large 2, Codestral, Pixtral, and Mistral Embeddings with function calling and JSON mode.

PRIMARY PRODUCTION USE CASE
European data privacy compliance and cost-effective coding agents.

PAYMENT & BUYING METHOD (INDIA VERIFIED)
European / Global Cards
